BIG FAILURES IN BALTIMORE

TWO BIG TRUST COMPANIES CLOSE THEIR DOORS IN BALTIMORE.

Intense Excitement in the Streets of Maryland City—Financiers Try to Allay Panicky Feeling.

BALTIMORE, Oct. 19.—The suspension of the Maryland Trust Company created intense excitement in financial and business circles and many people hurried to the vicinity to verify the news. The excitement was greatly intensified two hours afterwards by the announcement that the Union Trust Company had also failed. Bankers and financiers, however, combined to allay whatever panicky feeling was made manifest and by assurances that the troubles of the company were only temporary.

Allan McLean, third vice-president of the Maryland Trust Company, was appointed receiver of that concern, giving a bond of \$2,000,000 and Miles White Jr., president of the Union Trust Company, was appointed receiver of that corporation, his bond being placed at \$1,000,000. Receiver McLean promptly issued a general statement to the effect that the embarrassment of the Maryland Company was due to the heavy loans made to the Vera Cruz and Pacific Railroad, aggregating \$6,000,000. The Maryland Trust Company was a fiscal agent for the railroad. It is officially announced that the local officers of the investment company had nothing to do with its embarrassment. The company arranged a loan of \$2,000,000 in London last week for the purpose of supplying the Vera Cruz and Pacific Railroad Company with needed cash in connection with the construction, but before the money was turned to the fiscal agent, the negotiations were broken off and this precipitated the suspension.

The suspension of the Union Trust Company was owing to announcement made by the depositors in consequence of the failure of the Maryland Trust Company. Charles A. Crane, vice president of the Union Trust Company, said that the troubles of the company were only temporary. "We could not realize quickly enough on their securities, and the run which followed the announcement of the receivership of the Maryland company caused the trouble. It was hurriedly decided to apply for a receiver for our company." Miles White Jr., first vice president of the company, was appointed receiver by common consent. A statement will be furnished the public later in the day. Miles White Jr., receiver for the Union Trust Company, verified the statement of (Vice President Crane).

DOORS CLOSED. BALTIMORE, Md., Oct. 19.—The doors of the Maryland Trust Company were closed today to the great surprise of the general public, though in financial circles it was known for several days that the company was embarrassed and that its continuance in business would be dependent upon the outcome of efforts that were under way to borrow money in London to tide over pressing difficulties. Last week the Maryland Trust Company had almost completed arrangements for a loan of \$2,000,000 in London, but on Saturday afternoon, according to the admissions of company officials here, the prospective lenders abruptly withdrew from further negotiations. It was this failure to realize available funds which precipitated the suspension of the institution this morning.

There are many reports rife as to the causes which brought about the failure, but according to a preliminary statement made by the company officials and by Receiver Allen McLean, the suspension is solely due to large loans advanced to the Vera Cruz and Pacific Railroad. It is said that these loans aggregate in excess of six million dollars.

Receiver McLean is now engaged in the preparation of a detailed statement setting forth all the particulars in regard to the failure. This statement will be made public during the afternoon. "After the announcement of the failure of the Maryland Trust Company, a run on our company was begun by its depositors. We feared that this would lead to larger proportions tomorrow and swamp us. In order to protect everyone it was decided to go into court today and apply for a receiver. I am not yet able to make a detailed statement, but I know positively the company's assets are good and that every depositor will be paid in full."

So far as known there is no financial or business connections between the two suspended companies. Business was practically suspended on the Baltimore stock exchange today. There was a large attendance at such calls but brokers realizing the nervousness in financial circles and the hopelessness of offering stocks and bonds, except at material reduction in prices, concluded not to force sales. Holders of securities were advised by

bankers and brokers not to sacrifice their investments.

RECEIVER NAMED. BALTIMORE, Md., Oct. 19.—The Union Trust Company closed its doors at 1:15 p. m. Miles White Jr., has been appointed receiver of the company.

NEW YORK, Oct. 19.—The Union Trust Company of Baltimore, according to a recent statement, had a paid-up capital of \$2,000,000, a surplus of \$250,000 and undivided profits of \$189,000.

The Union Trust Company had on deposit when its last statement was issued \$1,935,000. Its loans were \$1,415,000.

RECEIVER NAMED. Receiver McLean issued the following statement this afternoon, explaining the cause of the failure:

"The whole cause of the embarrassment of the company is the fact that it has loaned to the Vera Cruz and Pacific Railroad Company in Mexico a very large sum of money, as security for which it holds on deposit the entire issue of first mortgage bonds (\$5,000,000) preferred stock and \$5,000,000 common stock of that road, and on account of the unfavorable condition of the money market it has been unable to effect a satisfactory loan upon these securities. "The Maryland Trust Company has for some time been able to go along without serious embarrassment in spite of having so much of its money tied up in the Vera Cruz and Pacific Railroad, and would undoubtedly have been able to wait a still longer time for a loan or sale of those securities were it not for the fact that it had a large line of demand deposits subject to withdrawal on call and during the past week two large withdrawals were made upon it. This rendered it absolutely necessary for the conduct of the business upon an honorable basis, to obtain a temporary loan upon certain of the investments owned by the company. This latter loan was in process of negotiation, with prospects of a favorable result, when, on Saturday last, the third vice-president, who, owing to illness and absence for the past six weeks of the president and the first vice-president, had been compelled to take up the entire management of the company."

SITUATION STILL THE SAME.

JAPANESE LEGATION ATTACHES NO IMPORTANCE TO RECENT DEVELOPMENTS.

LONDON, October 19.—The Japanese Legation here attaches no importance to the reports of the landing of Japanese troops at Pings Yang, Corea, or to the alleged concentration of Japanese troops in the neighborhood of Hakodate, Japan. The Legation says there is no reason to believe that the situation has not changed since last week's reassuring official telegram from Tokio, and the opinion was expressed that the Czar's appointment of a special mission to clear affairs in the Far East would tend to limit the powers of General Alexieff, the viceroy of the Far East.

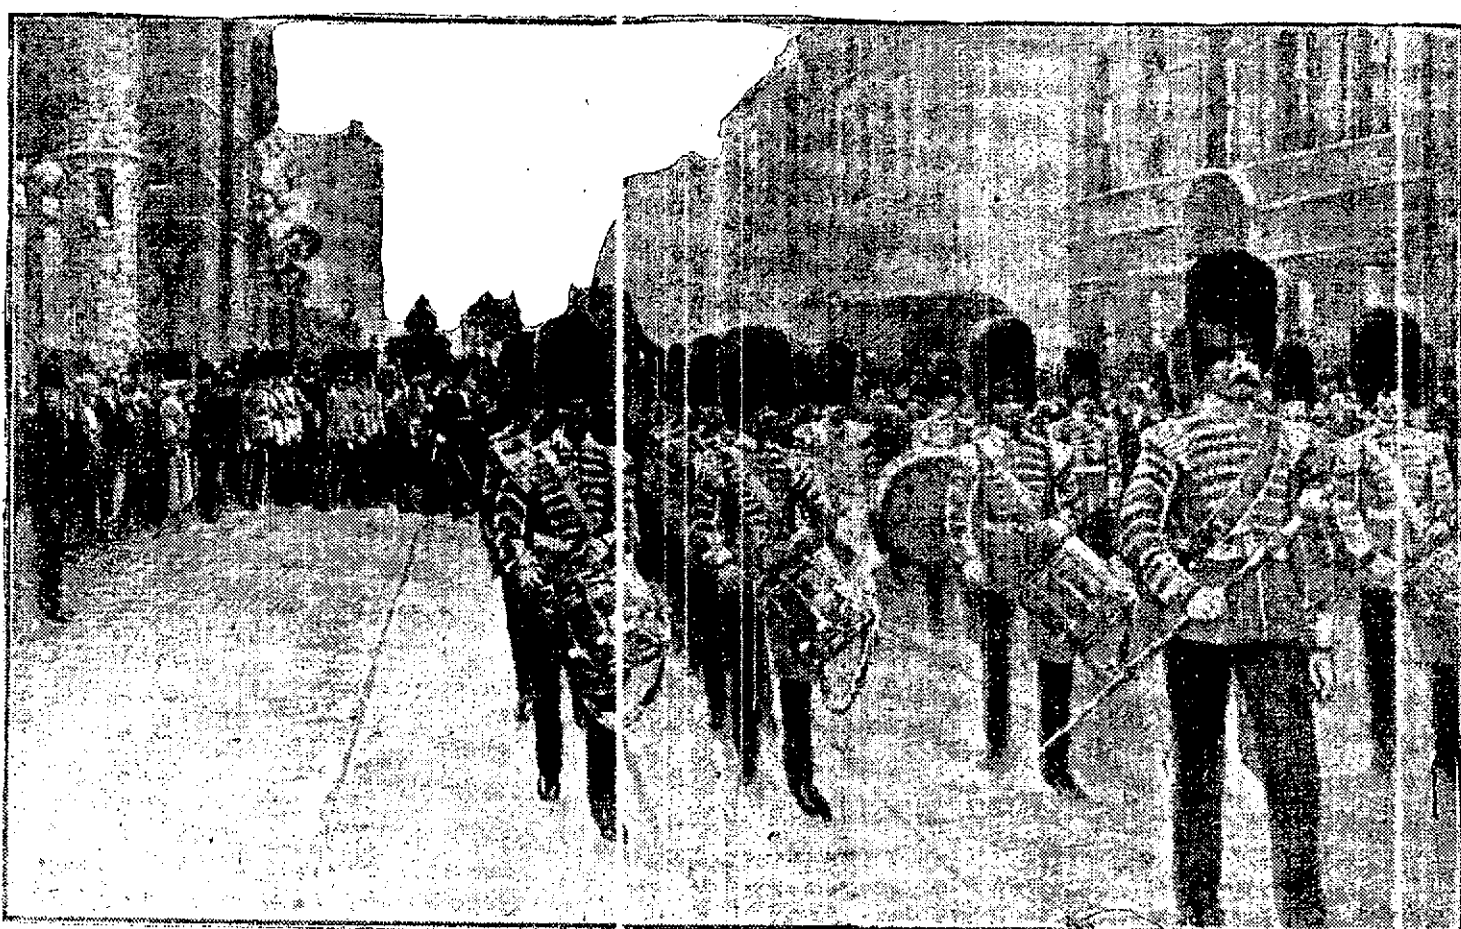

COMMISSIONERS VISIT KING.

LONDON, October 19.—After a brief secret session this morning the Alaskan Boundary Commissioners drove to Buckingham Palace, where they were received by King Edward. Ambassador Choate accompanied the United States Commissioners and introduced them to the King, who had previously been informed of the terms of the agreement reached by the tribunal.

The Alaskan decision will not be publicly given out before tomorrow.

The detachment marched from their headquarters in Flusbury to Euston, with the band of the company at their head. From Euston they traveled to Liverpool, where they embarked for America.

GEORGE NOTTINGHAM, ROBBER, KILLS HIMSELF IN THE PRESENCE OF HIS DIVORCED WIFE.

SAN FRANCISCO, Cal., Oct. 18.—Cramped by fear of arrest in connection with the robbery of the Manhattan Hotel at Point Richmond last Saturday night, George Nottingham, son of a wealthy and prominent resident of Walnut Creek, shot and killed himself in the room of his former wife at 120a Noe street this morning.

Nottingham, who was also known as William Willis, was a structural ironworker by trade. He has frequently been involved in trouble with the police and was only recently released from San Quentin, where he served one term for highway robbery.

After the robbery of the hotel the two men made their escape, going in the direction of West Berkeley. Deputy Sheriff Maltoza and Lindley were informed of the robbery and started in pursuit as soon as possible.

At Munday's saloon, on the corner of San Pablo and University avenues, in West Berkeley, the two deputies met the brothers and Maltoza spoke to them not suspecting that he had overtaken the men whom he was after. The four were in conversation for about two minutes, when suddenly George Nottingham jumped behind his brother, drew two revolvers and opened fire. Maltoza pulled his gun and returned the fire.

The brothers then retreated down University avenue toward the West Berkeley station. Maltoza and Lindley, who followed closely, kept up the fight. After the battle had covered nearly two blocks, the men jumped behind some bushes and made off in the darkness.

Walter Nottingham, the younger of the two men, was arrested at Martinez last night and made a complete confession. The whereabouts of the elder brother could not be ascertained, although it was suspected that he made his escape to this side of the bay. De-

tectives Ryan and Taylor were detailed to keep a close watch for him on this side, and it is supposed that Nottingham, seeing that all his avenues of escape were cut off, decided to end his life.

Early this morning he entered the room of Hattie Nottingham, his divorced wife, who lived with her father, Thomas Scott, at 120 Noe street, and seated himself on the side of the bed. Leaning over her, he kissed his divorced wife and whispered "Will you forgive me, Hattie?" Before the startled woman had time to realize what he was going to do, two pistol shots rang out and the lifeless body of Nottingham fell to the floor with the blood from two bullet wounds in his left breast.

Nearly crazed by the terrible sight, the woman ran screaming from the room and called for assistance. A physician was called in, but found, on examining the body, that the man died instantly. The dead man left a note in which he exonerated his brother of intentional wrongdoing, saying that he committed the crime and forced his brother to participate in it while he (George) was under the baneful influence of some drug.

The brothers are suspected of the hold-

up and robbery of some trainment in Berkeley on Saturday night, and the police of this city have discovered more than casual evidence which leads them to believe that the two brothers were concerned in several highway robberies and saloon hold-ups which have occurred in this city during the past few months.

At least half a dozen saloons have been held up by masked men, the success of the robberies being more or less varied, but the aggregate amount of the booty secured by the robbers was large.

The methods of the saloon robbers in this city were almost identical with those adopted by the Nottingham brothers in the Point Richmond hold-up.

BROTHER SURRENDERS.

MARTINEZ, Cal., October 19.—Walter Nottingham, one of the men who held up the Manhattan saloon at Point Richmond on Saturday night has given himself up to the sheriff.

He says his brother George Nottingham forced him at the point of a revolver to assist him in the job. They went over to Point Richmond from San Francisco on Sunday night to attend a prize fight.

George asked Walter to go with him to the Manhattan hotel, and when

they arrived, produced masks and forced him (Walter) to act.

He was held to answer without bail.

EX-CONVICTS IN YOUNG COUPLE CUSTODY. MISSING.

LOS ANGELES POLICE BELIEVE THEY WERE LOST AFTER VISITING SUNSET CRATER.

FLAGSTAFF, ARIZ., OCT. 19.—Two well-known young people, Leo Verkamp of Flagstaff and Miss Myrtle Brown, of Chicago, became separated from their party at Sunset crater in the lava beds, 20 miles northeast of Flagstaff Sunday afternoon, and up to the present time no trace of them has been found. A party was made up for a trip to Sunset crater in honor of Miss Brown, who is visiting her brother, head bookkeeper for the Arizona Lumber and Timber Company of this place. They reached their destination safely and after some time spent in exploring the crater, started to return. Mr. Verkamp and Miss Brown were on horseback in advance of the remainder of the party, who were driving. This was the last seen of the couple.

Those in the big went home, thinking the couple on horseback were in advance. The searching party was out all night but failed to locate the missing ones and returned at 10 a. m. today, for reinforcements and several large parties were at once started to the vicinity. Mr. Verkamp is cashier of Babbitt Bros., large mercantile house here and much anxiety is felt lest some serious accident has befallen the missing couple.

THINKS HUSBAND NOT INSANE.

The examination of Mrs. Martha Oatman on a charge of being insane is taking place this afternoon before Judge Ellisworth. Mrs. Oatman is laboring under the delusion that her husband, who was sent to Stockton asylum about a year ago, is perfectly sane and that he was railroaded there by enemies.

For a year past she has been circulating a petition to secure his release. People signed the petition to humor her and the other day she presented the document containing hundreds of signatures to Governor Pardee.

After having considerable conversation with her, Dr. Medros, one of the examining physicians, stated that she is sane and is laboring under a delusion in this particular respect. Otherwise she appears to be sane enough. "As long as she does not become violent, I do not see what we can very well do anything with her," he said. "I do not know how the law will look in this matter, but, in my opinion, she should be discharged. I have yet these are often times the most dangerous cases."

A person has such a delusion and they take it into their head that any person or set of persons are responsible for what they believe is the hurt they often kill them and general in some sensational manner. They attempt no concealment of the crime, but acknowledge it. The examination was in progress at the time of going to press.

San Francisco Prepares to Give Visitors a Royal Reception.

SAN FRANCISCO, October 19.—The influx of the leading bankers of the United States, coming to this city to attend the twenty-ninth annual convention of the American Bankers' Association, has commenced in earnest and by tomorrow night, it is expected, all the delegates will have arrived. The leading hotels are beginning to throng with the visitors and it is estimated that the visiting bankers and their ladies will number close to 2000.

The real work of the convention will commence on Wednesday morning, but there will be several meetings of the various branches of the association tomorrow morning at the California Theatre and the savings bank section meeting in the lecture room of the Academy of Sciences tomorrow afternoon. Both sections will complete their separate business before Wednesday morning when President Caldwell Hardy will strike his gavel at the California Theatre, convening the regular meeting of the association.

After Bishop W. E. Nicholls has offered prayer, the visitors will be welcomed on behalf of the city by Mayor Schmitz, on behalf of the State by Governor Pardee, and on behalf of the financial interests by James D. Phelan, to which addresses President Hardy will reply. The afternoon will be given over to the reading and consideration of the reports of the various departments, including the reports of the treasurer, auditor, secretary, executive council, auditing, protective and currency committee and the committee on the unification of laws, the bureau of fidelity, insurance and education. In the discussion of reports and general matters, speakers will be limited to five minutes, except by consent of the convention. For the afternoon there is also scheduled an address on "Money orders of the bankers' association" by L. P. Hillyer, cashier of the American National Bank of Macon, Ga. The address is expected to open a discussion which may lead to the adoption of a better system of money orders. After adjournment in the afternoon the State delegations will meet to select a committee on nominations.

The formal address for the Thursday session was upon "Currency," by W. B. Ridgely, Controller of the Currency; "Money Supply of the United States," by J. E. McAshen of the Texas National Bank of Houston, Texas, and an address by Homer S. King, president of the Wells, Fargo & Company Bank of San Francisco. Under the head of "Practical Bank Questions," the convention will engage in a general discussion. The day will close with reports of bankers on business conditions in their States.

On Friday, the last day of the session, Ellis H. Roberts, Treasurer of the United States, will speak on "The Effects of the Inflow of Gold," and J. B. Finley of the Fifth National Bank of Pittsburgh, Pa., will speak upon "The Education of Bank Clerks." Discussion of these topics will be succeeded by discussion of general subjects. The last act of the convention will be the election of new officers. Then it will finally adjourn and its members will devote themselves unreservedly to pleasure.

The entertainment committee has arranged a varied program for the enjoyment of the visitors. The entertainments will be devoted to sightseeing in and around San Francisco, and after Saturday the visitors will go to various parts of the State at will. Every facility and attention will be forthcoming to make these longer excursions thoroughly delightful. The bankers of Los Angeles and other Southern California cities have preparations to receive a large number of the bankers and their friends and the interesting points in the southern section of the State will be exploited for the benefit of the visitors.

NEW TRAIL FOR ZIONISTS ARE AT BANKER. GENTLY M. BOCK HAS A REV. GROVE. WORK. TOUCHED. CLOSE CALL.

DIVORCED MINISTER WILL BE GIVEN ANOTHER HEARING.

The fourth day of the fifty-third conference of the Methodist Episcopal Church South, opens this morning at 9 o'clock with Bishop Morrison of Kentucky in the chair. All preliminary addresses and exercises were omitted, and the conference proceeded to immediately get down to the business of the day.

Rev. W. J. Mahon, Rev. L. D. Hargis, Rev. A. L. Hunsaker, Rev. J. C. Hyden and Rev. A. F. Lee were granted superannuated relations.

In the matter of the appeal of Rev. M. F. Grove of Visalia the report of the committee was in favor of recommending the case for a new trial and the action of the committee was accepted as undisputed and unquestioned. Rev. Grove, I. will be remembered was the Visalia pastor who was expelled from his charge because of his remarriage after obtaining a divorce, contrary to the law of the church. He appealed his case, on account of the findings of the court and also on account of errors and irregularities he maintained occurred in his trial. The action of this morning was to the effect that the conference can try the appeal, but not the case, and they recommended the case to the original church at Visalia.

At their own request Rev. J. M. Pratt, Rev. T. G. Patterson, Rev. G. H. Wilkinson, and Rev. W. E. Clark were granted locations. Fresno was chosen as the next place of meeting.

Tonight at 7:45 the new appointments to the different pastorates will be made.

FERRIN CAUSED DOCTOR'S ARREST.

Charles L. Lawrence, a physician, with offices at 511 Twelfth street, was arrested today on complaint of J. H. Ferrin, claims agent of the Oakland Transit Consolidated and charged with battery.

The act which caused the arrest occurred Saturday night. Ferrin was walking up Washington street in company with his wife when they were between Ninth and Tenth they met a party of ladies coming out of a store and stopped aside to allow them to pass. In doing so Ferrin thinks he must have stepped where the doctor wanted to go, as the first thing he knew the doctor's fist was forcibly planted on Ferrin's chest. Ferrin did not wait for explanation, but promptly grabbed the doctor, telling him he would have him arrested. Lawrence jerked away, tearing up his vest as he fled and rapidly gathered. Ferrin then stepped into an adjoining place, where one of the doctor's friends grabbed him and would have assaulted the doctor again but for the restraining influence of another of the occupants, who made him put it down. The man was then taken to the police station.

ITO'S PLAN MAY WIN THE DAY.

YOKOHAMA, Oct. 19.—The negotiations between Russia and Japan have come to another standstill. It is thought doubtful that the Marquis Ito's view of the military occupation of Manchuria is endorsed by the whole country, but it is believed that it is strong enough to carry his point, owing to the paramount stand taken for the integrity of Korea and the open door in Manchuria for all nations.

Starch vs. Dextrine

There are many different kinds of oatmeal just as there are many different kinds of bread and meat. H-O is not merely oatmeal. The starch is changed by high temperature to dextrine. That is why H-O builds brawn and brain with so little digestive effort. Starch requires a strong stomach to digest it. The weakest stomach will quickly assimilate dextrine. H-O Oatmeal is prepared for weak people as well as the strong. A Kinderbeast puzzle in each package.

DOWIE WILL DO A LITTLE LABOR IN WALL STREET.

NEW YORK, October 19.—After attending an early service in Madison Square Garden, John Alexander Dowie and "Restoration Hosts" numbering 4000, began today a house-to-house canvass of the city. Before giving them final instructions, Dr. Dowie said: "I am going out to do a little restoration work myself and I won't be far from Wall street. Pray for me." The majority of the audience at the early service was composed of Zionists. No robes were worn. Dr. Dowie preached a sermon on "The Sin of Idolatry," with applications to present conditions.

A "Divine Healing Meeting" was held in the garden from 10:30 a. m. to noon, at which Dr. Dowie delivered an address on "The Opening of the Beautiful Gate of Divine Healing."

UNDER INFLUENCE OF POWERFUL DRUG.

SAN FRANCISCO, Oct. 19.—A letter which was found in suicide Nottingham's pocket adds a peculiar feature to his crime and his subsequent suicide. He claimed to have been spurred on to commit the depredations across the bay by the influence of a powerful drug. The letter was as follows:

"San Francisco, October 18, 1903. "Correspondent Dear Sir.—No the best of my recollection I was dosed Saturday evening, and during that state must have committed some awful deed, because I have a faint recollection of shooting at some one who was trying to stand me up. The thought of killing anyone is too great for me. At present I am, under the influence of that horrible drug, whatever it was. Yours respectfully,

"WILLIAM WELLS." "Please notify W. C. French, 927 Mission street, and Mrs. H. M. Nottingham, Walnut Creek, Contra Costa County." On the back of a raffle ticket which was found in his pocket Nottingham wrote the following note:

"My brother was innocent. I was crazy and forced him."

CAME ALL THE WAY FROM KANSAS TO LOSE HIS MONEY.

William Crowell, a banker, came all the way from "droughty Kansas" to attend the Bankers' National convention in San Francisco. He was always able to hold on to his money, but something about the largeness of California has caused him to become careless here, and he has lost his money. He is reported to be somewhere between Broadway and Broadway, and he is looking for it. He has a pocketbook containing five \$20 bills and a check for \$1000. He is looking for it. He is looking for it. He is looking for it.

YOUNG FARMER IS SHOT.

GAS VALLEY, CAL., October 19.—As the result of a hunting accident, George Reynolds, a young farmer, almost lost his right arm shot off at the shoulder. He had been hunting quail with a companion and was riding in a cart with his arm over the back of the gun, which was discharged in an unknown manner, fatally tearing the flesh and muscles, but not injuring the bone. He was ten miles from home and would have bled to death but for his companion, who drew a glass of alcohol and poured it on the wound, which prevented bleeding to great extent. The arm may be saved.

CITY COUNCIL.

The City Council will hold a regular session tonight. There will be a full delegation on hand to be heard in protest against the construction of a cross-town street and there is a large amount of routine work to be done.

MEDIAEVAL ALE TESTER.

The saying "There is more than one way to skin a cat," applies to the testing of ale. In olden times ale was tested for sugar only. If it had sugar in it, it was considered pure. The modern ale tester, however, has a more complex method. He has a glass of ale and he has a glass of water. He pours the ale into the water and he looks at the color. If the color is light, the ale is pure. If the color is dark, the ale is impure. This is the mediaeval ale tester.

FOOT BALL DAYS.

The foot ball days have come again, the gladdest of the year. One side of Willie's nose is gone, and Tom has lost an ear. Heaped on the field, the players jab and punch and claw and tear. They knock the breath from those beneath and gouge without a care. They break each other's arms and legs, and pull joints out of place. And here and there one who gets his teeth kicked from his face.

THE BOYS IN GRAY.

A question often asked, according to the United Service, is why the army cadets at West Point wear a gray uniform, while the uniform of the army is blue. The origin of the distinction dates back to the war of 1812-1814. When the Commissary-General of the Army could not procure the blue cloth required of General Winfield Scott's brigade, so they were clad in gray. So distinguished was the conduct of that brigade that it was called the "Army of Gray." When the war of 1812-1814 was over, the army was reorganized and the West Point Military Academy was made out of compliment to General Scott and his brigade the uniform of the corps of cadets was changed from blue to gray.

NEW TRAIL FOR ZIONISTS ARE AT BANKER. GENTLY M. BOCK HAS A REV. GROVE. WORK. TOUCHED. CLOSE CALL.

DIVORCED MINISTER WILL BE GIVEN ANOTHER HEARING.

The fourth day of the fifty-third conference of the Methodist Episcopal Church South, opens this morning at 9 o'clock with Bishop Morrison of Kentucky in the chair. All preliminary addresses and exercises were omitted, and the conference proceeded to immediately get down to the business of the day.

Rev. W. J. Mahon, Rev. L. D. Hargis, Rev. A. L. Hunsaker, Rev. J. C. Hyden and Rev. A. F. Lee were granted superannuated relations.

In the matter of the appeal of Rev. M. F. Grove of Visalia the report of the committee was in favor of recommending the case for a new trial and the action of the committee was accepted as undisputed and unquestioned. Rev. Grove, I. will be remembered was the Visalia pastor who was expelled from his charge because of his remarriage after obtaining a divorce, contrary to the law of the church. He appealed his case, on account of the findings of the court and also on account of errors and irregularities he maintained occurred in his trial. The action of this morning was to the effect that the conference can try the appeal, but not the case, and they recommended the case to the original church at Visalia.

At their own request Rev. J. M. Pratt, Rev. T. G. Patterson, Rev. G. H. Wilkinson, and Rev. W. E. Clark were granted locations. Fresno was chosen as the next place of meeting.

Tonight at 7:45 the new appointments to the different pastorates will be made.

FERRIN CAUSED DOCTOR'S ARREST.

Charles L. Lawrence, a physician, with offices at 511 Twelfth street, was arrested today on complaint of J. H. Ferrin, claims agent of the Oakland Transit Consolidated and charged with battery.

The act which caused the arrest occurred Saturday night. Ferrin was walking up Washington street in company with his wife when they were between Ninth and Tenth they met a party of ladies coming out of a store and stopped aside to allow them to pass. In doing so Ferrin thinks he must have stepped where the doctor wanted to go, as the first thing he knew the doctor's fist was forcibly planted on Ferrin's chest. Ferrin did not wait for explanation, but promptly grabbed the doctor, telling him he would have him arrested. Lawrence jerked away, tearing up his vest as he fled and rapidly gathered. Ferrin then stepped into an adjoining place, where one of the doctor's friends grabbed him and would have assaulted the doctor again but for the restraining influence of another of the occupants, who made him put it down. The man was then taken to the police station.

TEMPERANCE WOMEN MEET IN VALLEJO.

VALLEJO, CAL., OCT. 19.—The twenty-fourth annual convention of the Women's Christian Temperance Union commenced here today with a good attendance. Today the State Executive Board met and transacted routine business. This evening the convention will hold its first formal session and an attractive program has been prepared. The general theme for discussion will be "Inconsistencies."

Mrs. Nellie R. Goodwin will speak on "License and Religion." Mrs. Nina Stuntz Sheppan on "A Code of Morals for the Girl and the Boy." Mrs. Elizabeth Rosa M. Lee will read a poem, and Mrs. Iowa M. Holston will talk about "The Hagis the Army and the Navy."

ITO'S PLAN MAY WIN THE DAY.

YOKOHAMA, Oct. 19.—The negotiations between Russia and Japan have come to another standstill. It is thought doubtful that the Marquis Ito's view of the military occupation of Manchuria is endorsed by the whole country, but it is believed that it is strong enough to carry his point, owing to the paramount stand taken for the integrity of Korea and the open door in Manchuria for all nations.

Starch vs. Dextrine

There are many different kinds of oatmeal just as there are many different kinds of bread and meat. H-O is not merely oatmeal. The starch is changed by high temperature to dextrine. That is why H-O builds brawn and brain with so little digestive effort. Starch requires a strong stomach to digest it. The weakest stomach will quickly assimilate dextrine. H-O Oatmeal is prepared for weak people as well as the strong. A Kinderbeast puzzle in each package.

There is to be a meeting tonight in the old Hermitage building at Diamond, which will be attended by a large number of people of that place who will discuss the opening of a public reading room.

BOTH MEN ARE
READY.GOOD CONTEST WILL TAKE
PLACE IN OAKLAND TOMOR-
ROW EVENING.

Tomorrow evening Al Neill and Dixie Kid will meet in a fifteen-round glove contest before the Sequoia Athletic Club of this city. It will be the first professional contest given by that club under the new ordinance and from present appearances it will be one of the best ever seen in this city. The officials of the club have spared no pains in making the entertainment a memorable one and they have three bouts of more than usual interest.

The main event, and the one in which the principal interest is centered, is the go between Neill and the Kid. Both of these men have trained very hard for the contest and are in the best possible condition. They are both determined to win. Neill will be a back number in the pugilistic world if he is beaten and he knows it, consequently he has been working tooth and nail to get that man. "I will go into the ring at about 148 pounds."

The colored boy says he expects to repeat the victory of the first of the year, which he secured in Los Angeles. In speaking of it yesterday, the Kid said: "Of course, I expect to win and will force the fighting from the start. When a man gets into the ring with me he has to fight fast all the time. That's my game. I am not much of a talker. I am a fighter and am going to do my best to get that man. I will go into the ring at about 148 pounds."

The kid appears to be well trained and looks in excellent condition. He is lithe and active, while his muscles are hard and firm. It is quite apparent to the most casual observer that he has prepared himself very carefully for this meeting. The Kid has a good record and has beaten a number of the best men on the Coast in his class. He fought two draws with Billy Woods before the latter got too heavy and he has knocked out such men as Medals Dukelow, Young McConnell, Eddie Caine, "Soldier" Green and a number of others.

At Neill knows that he has much at stake on the battle of tomorrow evening. He owns a resort in San Francisco and a victory over Dixie Kid tomorrow evening will mean a return of popularity and fame to the San Francisco fighter and will have the effect of benefitting his business. In addition to this a victory will mean other matches, whereas defeat means obscurity.

Tomorrow evening the two men will meet at Harry Corbett's place in San Francisco where they will weigh in at 5 o'clock. They must make 152 pounds and neither will have any difficulty in making that mark.

The program will commence with a six-round go between Bobby Johnson and Jack Evans, who will contest for six rounds at 112 pounds. They are both clever little fellows and a good snap-kick is looked for. The second preliminary bout will be a welter weight affair between George Brown of the West Oakland Club and Gus Sausbury. Brown has made rapid strides to the front and with a little more experience will be a hard proposition for the best in his class to digest. He is very clever and his only trouble at present is his inexperience. He does not know how to follow up an advantage. When he does do these things he will have to look out for him.

Dan Coakley, of the West Oakland Club, has been selected to referee the bouts and this assures the spectators of a good, honest decision in each event. Coakley has come forward quite rapidly as a referee. He is familiar with the game and above all is conscientious.

The advance sale of seats has been unusually heavy and Deitz opera house will be packed to overflowing. The accident to Britt, which prevented his fight with Selzer, disappointed many of the fans who had their appetites whetted for a good contest and as they must have that desire satisfied, they will be in attendance tomorrow evening in goodly numbers.

BOOKS ON HEBREWS.
NEW YORK, October 13.—Haman of Padel has written a remarkable article on the present geographical distribution of the Hebrew race, says a Herald dispatch from London. He says a Herald dispatch from London. He says a Herald dispatch from London. He says a Herald dispatch from London.

Russia contains 5,500,000. Austria-Hungary 1,850,000. Germany 558,000. Roumania 300,000 and Great Britain 300,000.

Next to Europe comes the United States with 1,000,000.

Africa, the original home of the race, contains 150,000. Africa 250,000 and Australia 17,000.

Professor Haman believes that more than 200,000 Hebrews embraced Christianity during the nineteenth century.

CANCEROUS ULCERS
ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly and often a very insignificant scratch or bruise

A small, pimple came on my jaw, but gave me no pain or inconvenience, and I should have forgotten it. At this time of ten about it began to enlarge and felt it was as large as a half dollar, when I heard of S. S. S. and determined to give it a fair trial, and it is remarkable what a wonderful effect it had from the beginning; the sore began to heal and after taking a few bottles disappeared entirely. This was two years ago; there are no signs of the Cancer, and my general health is large eating ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. If you have an old sore or ulcer, write us all about it, and medical advice or any information you may desire will be given by our physicians without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

KEON, HALFBACK OF THE UNIVERSITY FOOTBALL TEAM.

BLUE AND GOLD
DEFEATED.STANFORD SPRINGS SURPRISE
AND WINS BIG FRESHMAN
GAME.

The 12-0 score in favor of the Stanford team, in the intercollegiate freshman game on the Richmond gridiron last Saturday, was in the nature of a surprise. Any superiority, if any, was looked for in the Berkeley "babies," their records in the preliminary games with other teams having resulted in so much better scoring than did the games between the Stanford freshmen and the same teams. Five thousand excited and wildly enthusiastic spectators saw in this game, Stanford put up the best game of football that has ever been played during the ten years that the annual matches have been held between the freshmen teams of the two universities. The cardinal's superiority over the wearers of the blue and gold was shown in every play and every move and turn. Allen, California's gigantic left guard, was perhaps the only exception. His advantage of forty-three pounds weight, over Stephenson, the 157-pound Stanford left, made him the strongest source of resistance to the overwhelming play of the cardinals.

The Stanford boys were in splendid condition and regardless of their inferiority in weight, averaging at least

five pounds to the man, were their opponents' superiors in every particular. They bucked the line better, they ran the ends better, they interfered better, beside punting more accurately if not so far, and in fact the general appearance throughout the struggle, it seemed they held an unfair advantage over the Berkeleyans.

In the first thirty-five-minute half, Stanford made her score by two touchdowns and two goals. In the first eight minutes, Duke made a shining duck punt, Selzer, for four and a half yards following the teams twelve consecutive advances covering forty yards.

The second touchdown came late in the half and to Stott who made a thirty-eight-yard run round goodwin, California's right end. This new quarter-back man was an example of the excellent judgment displayed by the Stanford eleven at all times, and was also an example of clever individual work. Duke kicked both goals.

California made two desperate but unsuccessful attempts to buck the line. Then after gaining nothing, punted back five yards past the center.

Encouraged by the howling rosters Stott ran in and kicked a clean twenty yards. Weller followed by smashing through California's right guard, for two yards and then Stott taking advantage of the now play permitted this season signalled to carry the ball himself, cleared the line, dodged the end, beautifully straight-armed the quarterback, Sell, and had a clear field.

The line-up was as follows:
The line-up was as follows:
Stanford Freshmen—Kelly, 189, L. E. True, 154, L. P. Shaner, 164, L. G. Molino, 155, C. Stephenson, 157, R. T. Butterfield, 157, R. T. (West, 145) Morrow, 147, R. E. Stott, captain, 152, Q. Doyle, 157, L. H. (Packard, 150) Brennan, 157, R. H. Weller, 177, E. California—McMinnis, 180, R. E. Seabury, 163, R. T. Jackson, 175, R. G. Haffey, 180, C. Allen, 200, L. G. Sweeney, 152, (Jones, 160), L. T. Gillis, 157, Davis, 140), L. E. Sell, 140, Q. Kern, captain, 170, (Crow, 155), R. H. Tweedy, 150, (Sandborn, 152), L. H. Gabriel, 150, F.

Average weight—Stanford, 157, California, 162.
Kern, California's captain, was laid out seven times before his sturdy, valiant courage could be downed. After an almost superhuman effort to stay with his men, he retired to the side lines just in time to see the sensational quarter-back dash.

"Their back field was too good for us," said Coach Whipple of California after the game. "Stanford surprised us all. I think, by the strength of her line and the real excellence of those four men behind it. Weller is certainly a splendid player for a freshman and he ought to be a crack before he leaves college. He has the weight and the strength to tear up a line of light men; but if he ever tries bucking a lot of veterans with that stand-up-and-twist style of his, they'll carry him out on a stretcher. Dole, Dole and Stephenson also played a good game for Stanford. I think our line held as well as theirs in playing its opponents, but the Cardinal backs were too good. The best team won."

"Yes, we certainly did have hard luck. Our men were not apparently in so fine condition as I would like to have had them, and when Kern went out it was a blow to our scoring chances. The boys lost, but I want to say that they played as well as they could. Not one failed to fight for everything in him. The others were better fighters, and beside they found our weakest point at the very start. Kern, Sell, Gillis, McMinnis, Allen and Davis

The week just passed has been a disastrous one for the Oakland, San Francisco and Sacramento teams. The recruits managed to win two out of seven from the league leaders; San Francisco dropped six straight to Seattle and the Senators came out of the series with but two games out of seven. The result has been to make the race for the pennant a walkover for Los Angeles and to clinch Oakland's hold on last place. San Francisco, Sacramento, Portland and Seattle are bunched close together, in the order named, and it begins to look as if there is going to be a hard fight for second place. The class of ball being played by the northern teams is of the edge. During the last six weeks they have reduced the gap between them and Sacramento from 150 points to less than 50.

Young Hitt, the clever Santi Barbara amateur, has been signed by L. H. man for the balance of the season. He made his first appearance yesterday afternoon, but did not pitch long enough to give any idea of his capabilities.

Charlie Baum has been signed by Morley for next year. He will not go north with the angels, but is due to report at Los Angeles next spring.

In yesterday afternoon's game a Seattle pitcher touched Hodson up for twenty-one hits for the second time in one week. In the six games Seattle made a total of 100 safe hits.

EXCELSIORS WIN A WELL CON-
TESTED GAME FROM
MANDELLS

The Excelsiors defeated the Mandells yesterday in a hotly contested game of ten innings. The score was 3 to 1. The game belonged to any one until the tenth inning, when Taylor hit for a single, De Brunner flew out, Carey walked, and then Blaw hit for three bags, scoring Taylor. The northern team led by the Excelsiors, Daniels made a phenomenal one-hand catch in the eighth inning and was loudly applauded by the crowd. The line-up was as follows:
Excelsiors—Carey, catcher; Cox, pitcher; De Brunner, first base; Taylor, second base; Haley, third base; Dickinson, shortstop; Gibson, left field; Cramer, center field; Blaw, right field.
Mandells—Nolan, catcher; Ellis, pitcher; Ward, first base; Nevill, second base; Williams, third base; Mardull, short stop; left field, Daniels; Vede, center field; Lange, right field.

ACCUSED OF LARCENY.

For the past week the police have been looking for 16-year-old Roy Bennett, who was wanted for grand larceny. Yesterday he was taken into custody by Officers Lynch and Arnest, and escorted to San Francisco, where it is alleged an offense was committed.

A week ago Bennett and a companion named Thomas Taylor crossed the bay to have a good time. They patronized a number of places on the night route and Taylor got under the influence of liquor. He claims that Bennett hit him with a stick from him without consulting him about it, and didn't mention the fact after he had sobered up.

NEW CABINET IN BOLIVIA.

NEW YORK, October 18.—It is reported that a new Cabinet will be formed before the end of the month, says a Herald dispatch from La Paz, Bolivia.

all played a hard game for Berkeley. "Better condition, better team work, better backs, won the game," said Coach Lane of Stanford after the contest. "The boys had fine spirit, and this helped to, more than a little. They fought all the time, played a clean, straight game of football and won a well-deserved victory. Their condition was a nearly perfect as it was possible to get it."

CAPTAIN SMITH, CRACK FULLBACK OF THE COLUMBIA COLLEGE TEAM.

One of the greatest fullbacks of the gridiron is Captain Smith of the Columbia, New York team. The opening game of the season, played at the Polo Grounds under the new rules, produced no more serious mishap than a badly battered eye, sustained by Captain Smith himself.

GOOD GAMES BY
AMATEURS.NOTES AND GOSSIP OF BALL
PLAYERS ABOUT THE
BAY.

The Old Legits defeated the O'Connors and O'Reillys yesterday at Freeman's Park, at 12:30 o'clock, by a score of 16-4. The Old Legits have not lost a game to date and expect to finish the season with a clear string of victories. The feature of the game yesterday was the catching of "Paul" Fennell.

The Bullitts and the Royals played a match game at St. Mary's College grounds yesterday at 12:30 o'clock, and it certainly proved to be a battle royal. The Bullitts came out victorious by a score of 1-1. The feature of the game was the batting and base-running of Cliff Ireland. The Bullitts were shy an outfielder when the game was on, and Manager Hatchcock borrowed the services of the crack Joaquin all-around player, Cliff Ireland, and he eventually proved to be the whole show. He brought in one run on his timely hit and afterwards scored the winning run by his clever base-running. This game was one of the most exciting of the season.

The Harvey and Daroux defeated the Baggett yesterday by a decisive score of 10-2. The team representing the book-makers had their regular battery, Zumblock and Sullivan, at work, and they certainly acted as though they were not ashamed to work together. Zumblock proved to be a puzzle to "Jack" Lynch's team. The team was strengthened in quite a few other departments of the game. George Smith and a few other hits off of the glove southward of the book-makers. Pierce of the Baggett was hit hard, both "Eddie" Murphy and George Smith lining out home runs.

The Heesemans defeated the Potlumas yesterday by a score of 19-3. Flynn

AUTOMOBILE RECORD FROM
MONTEREY TO THIS CITY
IS BROKEN.

O. D. McNab and Cuyler Lee created a new record yesterday by running their automobile from Monterey to Twelfth and Broadway, in five hours and fifty-seven minutes. A collision with a telegraph pole was the only mishap marking the trip. While speeding along Twelfth avenue the machine swerved and struck the pole. The two men were thrown from their seats, but escaped uninjured, and after a hasty assurance that the damage to the machine was slight, they sped on their way, losing only ten minutes by the mishap.

It was 22 minutes past 4 o'clock when Lee and McNab left Monterey. Salinas was reached at 7:14; San Juan at 8:18 and Alhambra at 8:52. They rode into San Jose at 10:32.

After the scoring ceased he took a stiff brace and struck out seven men in rapid succession. "Lefty" O'Brien of the Brooklyn is only 15 years of age and by the time he is 20 he will certainly be a regular "Rube" Waddell.

The Hollands team was defeated by the Stocktons by a score of 9-4. The battery of the Hollands was Williams, Tyson and Barnes, while Innalls and McMurray were in the points for the Hollands.

The Jesse Monroes defeated the San Jose team by a score of 10-2.

"Bill" Fey has signed with the Old Legits for the balance of the season. "Old" Fey had two hits yesterday, and he said that if he had had the bat that he uses when the Legits play he would have made at least four hits.

The Joaquin team will play the Gantner-Matthews next Sunday at Freeman's Park at 2:30 o'clock. R. H. Starr.

Rollerball, the speedy soldier pitcher of the Contra Altos, was called for the L. L. League for two seasons.

The Unionists of Oakland defeated the M. H. A. of San Francisco yesterday by a score of 17-15. The game, though full of errors, was very interesting. "Duke" Kelly proved to be a wonder in the box and he will have to do all kinds of side-stepping to avoid signing contracts with some of the "League" teams. "Duke" Kelly also played a great game, accepting all of his chances without an error. Lesser players, such as if he was accustomed to it, and he hit the catcher, Harvey Soliman, got a hit every time he came to the bat. Barnes and Buckman played good games.

HIT OVER THE EYE.

George Jaker, a painter, residing at Twenty-fourth and Fillmore streets, got hit in the forehead yesterday with some iron, whose name he will not disclose, and received a deeply lacerated wound over the left eye. The wound was dressed at the Receiving Hospital.

A Great Suggestion.

There was a big sensation in Los Angeles, when W. J. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insupportable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure. Similar cures of Consumption, Pneumonia, Bronchitis and Grip are now being effected by the needless remedy for all throat and lung troubles. Price, 50c and \$1.00. Guaranteed by Dr. King's New Discovery, Seventh street and Broadway, San Francisco, Cal."

OXYGEN FOR PUGILISTS.

JIM CORBETT IN THE ACT OF DEMONSTRATING THE ADVANTAGES OF COMPOUND OXYGEN ON YOUNG CORBETT FOR THE PURPOSE OF OFFSETTING THE LIABILITY TO SUCCEUM TO KNOCKOUTS.

The sustaining qualities of oxygen have long been known to physicians, and many invalids have been benefited by inhaling oxygen into the lungs. It now seems probable that inhalations of oxygen will be used by pugilists as a means of improving the wind and enabling the knights of the nit to do better work during fistie controversies.

TEAMSTERS.
Teamsters' Local Union, No. 20, will meet tonight at 856 Webster street and initiate four new members. The executive committee will report on the efforts to secure new members and centrally located quarters. The rooms on Broadway formerly used by the old Acme Club seemed to appeal to the committee as the most favorable location for a meeting place for the union. Two weeks from tonight the new constitution will be acted upon.

BAKERY WAGON DRIVERS.
The bakery wagon drivers held a special meeting Saturday evening in Cooks' and Waiters' headquarters, to discuss the new wage schedule that was to go into effect today. Only about half the employers have signed the agreement. As there were not many members present, it was thought best to postpone definite action on the matter until the regular meeting of the union on Thursday next. Meanwhile an effort will be made to get the other proprietors of union shops to sign the agreement.

TALLYMEN.
The regular semi-monthly meeting of the Tallymen's Union was held Saturday evening in Kohler and Chase Hall. As there was no business to be transacted an adjournment was taken after the usual routine had been gone through.

MILKMEN.

The milk wagon drivers will meet next Sunday in Beckers' Hall, Washington street, to initiate a driver from Berkeley into the union. There will also be a discussion of the advisability of employing a business agent.

LATHERS TO HAVE SMOKER.

The members of the Lathers' Union will have a smoker Wednesday evening in Kohler and Chase Hall in honor of the officers elected at the last session.

NEWSBOYS.

The committee to settle up the affairs connected with the newsboys' benefit at Peck's Theater met yesterday at Eighth and Broadway. They will make their report to the union on Wednesday evening.

CARPET MECHANICS.

There will be a special meeting of the Carpet Mechanics' and Upholsterers' Union on Thursday, November 12, at Kohler and Chase Hall. The officers of the union are exempt from dues this month.

CONFIRMATION AT ST. FRANCIS.

ARCHBISHOP MONTGOMERY OFFICIATED AT THE SERVICES YESTERDAY.

A large class was confirmed in St. Francis de Sales Church yesterday afternoon by Archbishop Montgomery, assisted by Rev. Thomas McSwaney, the pastor of the church, and a number of visiting priests. The members of the class were: Veronica Crowley, Regina Clark, Kate Carey, May Dooley, Loyola Sullivan, Margaret Hagaman, Alice Lemaire, Catharine Benton, Anna Ahern, Margaret Kehoe, Florence Chertoff, Petronilla Winkler, Lucy Krier, Genevieve Mase, Alice Dyer, Hester Park, Ella Bergstrom, Alta Beauchamp, Madeline Gallagher, Kate Williams, Gloria Paola, Blanche Bohan, Hilda Desmond, Ruby Burgeon, Margaret O'Connor, Gertrude MacNamee, Julia Foley, Ida Winkler, Teresa Barabata, Delphina Pezola, Rosalie Ahern, Claire Creel, Gertrude Dooley, Alice O'Leary, Hazel Lumping, Helen McDonald, Audine Christman, Christine Schraun, Verdie Kenny, Nelly Ivanovich, May Bailey, Ronald Lagan, Anna McGee, Gertrude McGrath, Kate Hanley, Cecelia O'Connell, Mary Sexton, Mary Hagaman, Annie Kennedy, Mary Coyle, Katharine Vatter, Margaret Waters, Francis Newman, Herbert Callaghan, George Katzenberg, John Mayes, John Carter, Thomas McCarthy, Ligonzo Greedone, Sam Kullrich, Francis Smith, Clarence Selby, Francis Feeney, Leslie Brodthoff, Frank Lampe, Joseph Rulinger, Francis O'Connell, Harold Brodthoff, Thomas Griffin.

WM. J. DINGEE SELLS PROPERTY.

(From S. F. Chronicle.)
The old Mason Riche property on the northeast corner of Geary street and Grant avenue was sold by William J. Dingee to a client of the Sonnet Brothers or a price stated to be \$450,000. The lot fronts 40 ft on Geary street and extends 122 feet in the rear on Grant avenue to Union Square. The building there on is a four-story iron and brick structure, which cost \$135,000. For this piece, with the forty feet adjoining on Geary street, William J. Dingee paid \$210,500 in 1902. The forty feet east of Grant avenue he sold a few weeks ago, through Sonnet Brothers, to Charles J. Zehner, for \$125,000. The two pieces which cost him \$335,500 he receives \$582,500, or a profit of \$247,000 in a little over a year. Geary street real estate has been prominently in evidence during the last two or three months of a rather quiet market. Among such transactions have been the transfer of the lot, 50x85 feet, and old buildings, on the south side of Geary street, 270 feet east of Powell, from Harvey H. Dana to John Rosenfeld's son for \$175,500. And to recall to Mr. Kohl for \$130,000, and the purchase of the Victoria Hotel on the southeast corner of Geary and William streets, 55x85 ft., by Dr. E. W. Macdonald from Ferdinand E. Hesthal for \$155,000.

WARSHIPS HURT IN COLLISION.

FERROL, Spain, October 19.—The British battleships, Prince George and Hannibal have been towed in here. The former vessel was badly and the latter slightly damaged in a collision during the naval maneuvers off Cape Finisterre.

TWO RUNAWAY BOYS.

While De Bore, aged 10, and Iney Elkins, aged 11, ran away from the San Francisco Police Station Sunday morning, they were found in Oakland yesterday, where they were picked up and taken to the City Prison. They will be returned home when they came.

MRS. JOE S. DE FRATES.

Mrs. Joe S. De Frates is a well-known Alameda woman. She resides with her husband at 1401 Stanton street.

HUNTERS HAVE A NARROW ESCAPE FROM BEING KILLED.

HAYWARDS, October 19.—L. C. Kinckel of this place and William B. Styles of Fruitvale and George W. Eowers of Oakland, were the victims of an unaccountable accident while returning from a hunting trip in Dublin canyon about 9 o'clock last Saturday night.

Just how it happened that the men were not killed or at least seriously injured is unexplainable for from where the wagon, team and all left the road to the bottom of the ravine where they landed is at least fifty or sixty feet, and during the descent the entire outfit described several somersaults. As it was, Kinckel sustained a fractured shoulder blade, Styles had one leg badly sprained and Eowers is suffering only from a few minor bruises.

O. H. Rasmussen and two daughters were passing and upon hearing the calls of the men hastened to their assistance. After two hours, Mr. Rasmussen managed to extricate the unfortunate victims from their uncomfortable positions and aided in bringing them here for medical treatment. As a result of Dr. Dean's efforts the men were able to return to their respective homes.

Miss Rachel Miller, a pretty and popular young lady of San Francisco, daughter of Mrs. Miller, proprietress of the Crocker Hotel of that city, surprised her friends last Saturday by eloping with Harvey E. Teuscher, a young man in the employ of the Oakland Transit Company.

The couple quietly left the bride's home last Saturday and came to Oakland to the home of Rev. E. R. Dills who united them in marriage. They started immediately afterwards to San Jose to spend their honeymoon and on their way telegraphed Mrs. Miller for forgiveness. Mrs. Miller was mortified and shocked at her daughter's escapade, and at first was loath to give her blessing. She considered the matter, however, and thinking that her objections would be of no avail now, she sent word to the pair to return to the Crocker where they arrived last night.

Mr. Teuscher is well educated and is an accomplished musician, being a leader of an amateur orchestra in this city. Mrs. Miller's only objection to her marriage with her daughter was that his financial condition would not enable her daughter to live in the manner she had lived hitherto. Mrs. Teuscher is a sister of J. J. and J. D. Miller, local representatives of the American Newspaper Association. Alex. Miller, a banker in Grand Forks, B. C., George Miller of Grand Forks and of Miss Miller. She was educated at the convent of the Sacred Heart, Canada.

The young couple had known each other for five years. Last year Mrs. Miller sent her daughter to Europe to endeavor to make her forget what she deemed a childish love affair, but upon her return Miss Miller's affection for the young man was not changed and when they found Mr. Miller was much opposed to the match as ever, they planned the elopement.

LYNCHER MAKES A CONFESSION.

BUTTE, Mont., October 19.—A Cody, Wyo., dispatch says: W. H. Smith, in custody at Basin, Wyo., has confessed to complicity in mobbing the jail at Basin, last July when Gorman and Walters, two murderers, were shot by the mob and Deputy Sheriff Price killed and Deputy Meade wounded. Smith gives the names of thirty-five other men in the mob. The grand jury called by the Governor of Wyoming will meet at Basin this afternoon. It is feared a tempt will be made to kill Smith.

WILL PUBLISH THEIR DECISION.

LONDON, October 19.—The Alaskan boundary Commission will have one more meeting. It will be public and will be held at noon to-morrow at the foreign office. At that time and place the arbitration decision which was verbally agreed on Saturday and exclusively cabined to the Associated Press, and which today has been confirmed, will be read.

PERSONAL AND SOCIAL NOTES.

CLARENCE GRAY WEDS MISS EVA KNIGHT—AN ENGAGEMENT.

The residence of W. H. Knight on Webster street was converted into an artistic bower when the marriage of Miss Eva Knight and Clarence H. Gray was solemnized there Saturday night. The wedding recesses of the drawing room was chosen for the ceremony. It was decorated with ferns and delicate potted plants. A Chinese basket was hung overhead, bearing huge drooping chrysanthemums. Little white blossoms and huckleberry relieved the green everywhere and there was a delightful change in the living room to pink cosmos.

The bride wore no veil and carried a bunch of chrysanthemums. Her gown was an exquisite clinging white crepe with the fashionable yoke of embroidered chiffon. The gown was scrolled and elaborate with silk applique. The bride was attended by her father following the ceremony performed by Rev. Ernest E. Baker of the First Presbyterian Church; an elaborate supper was served.

Mr. and Mrs. Gray have left for a tour of the East and return to the pretty home awaiting them here.

COUTLER-REED.

The wedding of Miss Leota Coulter and Fred Eroy Reed which will take place at the Methodist Episcopal Church Wednesday evening, October 28, promises to be one of the brilliant events of the season.

The bride is a daughter of George Coulter, the wealthy grain man of Centerville.

Mr. Reed is well known in social and club circles and is at present identified with the New York Life Insurance Company.

WOMAN'S GUILD.

The Women's Guild of St. John's Church will give pictures of the Passion play and the Holy City at the church parlors, corner of Eighth and Grove streets, Thursday, October 22 for the benefit of the organ fund.

The church organ, which was damaged by water, is being repaired by the builder without removal from the church. The friends of the church and those who have had the privilege of enjoying the music there in the past will be anxious to help such a worthy object. An interesting and instructive entertainment is offered and further donations will be gratefully accepted by the president of the Guild, Mrs. C. E. King, No. 1004 Market street.

WILL GIVE A DANCE.

On Saturday evening, October 31, the Tuesday Euchre Club will give a dance at the golf clubhouse in honor of four of the club members, Miss Jacqueline Moore, Miss Edna Barry and the club's two most recent brides, Misses Alice Burrill and Cecelia Burrill. Success is assured and the club will add one more delightful affair to the list.

AN ENGAGEMENT.

There is an informal announcement of the engagement of Miss Fanny Dorothy Greene, daughter of Mr. and Mrs. W. W. Hunt, to Harold Wallace Giffers. There has been a long and intimate acquaintance between the young people since Miss Greene's family, but the marriage will take place early next year. Both young people were educated in this city and Mr. Giffers is connected with the firm of Stockton & Co., 1000 Market street. Friends are invited to hear that they will make their home on this side of the bay.

We Offer \$1,000

For a Disease Germ That Liquezone Can't Kill

On every bottle of Liquezone we push an offer of \$1,000 for a germ that it cannot kill. We do that to convince you that liquid oxygen does kill germs. Any drug that kills germs is a poison to you and it cannot be taken internally. Liquezone alone can kill germs in the body without killing the tissues, too. It is the only way known—the only way one can conceive of—to destroy the cause of any germ disease.

Kills With Oxygen

Liquezone is simply liquid oxygen—no drugs, no alcohol in it. It is the discovery of Paul, the great German chemist, who spent twenty years on it. This oxygen was to get such an excess of oxygen in the blood that no germ could live in any membrane or tissue.

Oxygen is life to an animal—the very source of vitality. Its effects are exhilarating, purifying. It is Nature's greatest tonic. But germs are vegetables, and this excess of oxygen—the very life of an animal—is deadly to vegetable matter. Liquezone charges the blood with such an excess of oxygen that no germ can live where that blood goes. We spend fourteen days in making each bottle.

Germ Diseases

These are known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone kills the germs, wherever they are, and the results are inevitable. By destroying the trouble, it invariably ends the disease, and forever.

We Paid \$100,000 for the American rights to Liquezone—the highest price ever paid for similar rights on any scientific discovery. Be-

OAKLAND TRIBUNE

William E. Dargie, President.

JONATHAN EDWARDS.

It is worthy of note that the Presbyterianism renounced the doctrine of infant damnation before the two hundredth anniversary of Jonathan Edwards' birth was celebrated. The eulogies pronounced on the "Great Theologian" sound rather queer in view of the fact that the fundamental dogmas from which he drew his inspiration are lifeless and abandoned. The Congregationalism of our time, in its theological aspects, bears small resemblance to the Congregationalism in the time of "The Great Awakening."

The gloomy theology of Edwards was passing where it was first planted in the New World when Emerson overthrew it utterly. Looking back over the history of religious development in New England, one is impressed by the fact that there is a great deal of cant in the panegyrics lately poured out on Edwards.

Despite his eminent talents, his profound earnestness and his purity of purpose, Jonathan stood for a doctrine that is abhorrent to enlightened mankind. The pitiless logic of his fatalistic creed made the Deity out of a cruel monster and left poor humanity struggling hopelessly within the narrow confines of a predestined career. Of what avail were Edwards' vast powers as a logician, since they were wasted in bolstering the more gloomy and forbidding aspects of a theology that is being rapidly modified to conform to loftier conceptions of the Creator and more enlightened ideas of the reason for man's presence on earth.

What boots it that his motives were pure? It is admitted that the motives of Julian the Apostate were pure. The heads of the Inquisition were positive they were pleasing God and serving the cause of true religion by putting heretics and infidels to the rack and the stake, yet all the world recognizes that the most horrible sufferings and cruelty resulted from their misguided piety.

It is a marvel that a mind of such amplitude as Jonathan Edwards possessed could be so narrow at certain points, and that a reasoning power so vast as his could have been content with premises so distorted and illogical as those he assumed to be the basis of religious truth. His was certainly a great intellect, but what benefit was it to mankind? It was reactionary and unphilosophical. Popular thought in a locality that he had dominated rebelled against his teachings even in his life time, and has ever since been discarding the tenets which he strove to establish. The reaction from his stern dogmatism was aptly illustrated in the scepticism, the moral callousness and the cold selfishness of his own grandson, Aaron Burr. Of what profit to mankind, to civilization or the pure faith in the justice of God was the life of Jonathan Edwards? As a specimen of the grand antique he is impressive; as a student in the development of the Hebrew temperament under the influence of Calvinism, he is profoundly interesting; as an example of unbending rectitude in obedience to conviction he commands respect. But there the matter ends. With all his zeal and talents, his efforts to serve the cause of God and man were fruitless. His conception of the one was an intellectual nightmare. The limitations he placed on the other made him a growing worm who had been counted among the saved or damned ages before he was born.

"By their works ye shall know them," said Jesus. What are the works of Jonathan Edwards that are to be accounted worthy in this day? His austere puritanism avails no more than the self-denial of any anchorite monk. He endured poverty and neglect rather than abate one jot of his beliefs; but others of different creeds have gone to the stake rather than abjure their faith. Paganism has its martyrs no less than Christianity. In fact, the true martyr is in essence a fanatic, and has in him the root of that conviction which flowers into persecution under the sunshine of power and suffers with fortitude in adversity. Inasmuch as Jonathan Edwards mistaught the world regarding the wisdom and mercy of the Creator, and totally misconceived the mission of man on earth, his life was a failure and his teaching a fallacy.

They spell it steal trust now.

It is a coincidence that Rev. Dr. Innes left the Episcopal church about the time his clerical brethren in that communion decided that there is no hell. Dr. Innes has an idea or two on that subject himself.

Tom Johnson's idea of getting rid of the dead timber in the Democratic party is a good one if it is only applied rightly, but it is a rather empty profession so long as he clings to Bryan and his dead issue.

"Eljah" Dowie seems to think salvation is a thing to be sold at auction. He may be wrong in his premise, but he is undoubtedly right in selecting New York as the proper place to dispose of it on those terms.

DOWIE AND THE PRESS.

The newspapers are making as much of "Eljah Dowie's" advent into New York as they would of a Japanese invasion of Manchuria. Judging from the manner in which they chronicle his every move and utterance, one would think they deemed his entrance into Gotham an important event.

But they do not. Dowie is simply a pretext for making "a spread." He furnishes material for a sensation in the absence of something of real import. His claim to being the reincarnation of the Prophet Elijah is sufficiently novel to excite languid curiosity and his mountebank speeches and antics are humorously suggestive enough to relieve his bald imposture of its more sacrilegious aspect.

Nevertheless the newspaper exploitation of Dowie is in bad taste and worse journalism. Nobody knows better than the editors who are giving him columns of space that he is a mercenary humbug. His methods are those of the showman, and he is making a travesty of sacred things merely to gratify a thirst for notoriety and the love of gain.

He nets money from his dupes without rendering any equivalent for it. His claims to a supernatural power of healing is a fraud and his assertion that he is the Prophet Elijah reincarnated is the grossest of impious impostures.

The newspapers are really aiding Dowie's schemes by magnifying his importance and treating his ridiculous pretensions as serious. Why should he be given higher place than the other massless, prophets, revelators and divine healers faking around the country? Over in Brooklyn there is Manna Mysteria, who claims to be Jesus reincarnated; there is Schlatter, who wears his hair and beard in the way that Murillo depicts Christ as wearing his; there is Koeris Teed, the Douk-hobar messiah, Mrs. Mary Baker Eddy and the fellow who claims to be the reincarnated St. Paul, not to speak of the multitude of divinely-inspired persons who communicate with the inhabitants of the spirit world by slate writing, table rappings, etc. Why should Dowie be set above these?

The showmen in Washington who kidnaped a boy and taught him to eat dirt for the edification of patrons of a dime museum must have thought he would grow up to be a politician.

The beet sugar industry is assuming mammoth proportions in Russia. According to the official returns there were 275 sugar mills in operation in European Russia last year. The beet crop of the country amounted to nearly 5,000,000 tons, while the area under cultivation was 1,310,000 acres. As beets in Russia contain about 9 per cent of saccharine matter, the sugar production approximated 800,000 tons. In California beets are much richer in saccharine matter, and yield a finer quality of sugar. This State could easily be made to produce an amount equal to the production of the entire Russian empire. There are vast areas in the Sacramento and San Joaquin valleys adapted to beet culture, yet there are those among us who would discourage the development of this magnificent industry.

The news from the Orient is becoming more pacific. According to the dispatches, the Japanese Cabinet is a unit against going to war. This peaceful inclination is probably the fruit of the knowledge that Japan is being put forward to pull the chestnuts out of the fire for England and Germany. These nations will not help her to fight Russia, but they stand ready to grab the spoil when the combatants have become too exhausted to prevent the spoliation. The bear and the tiger refuse to fight that the jackals may make off with the prey.

As Mayor Schmitz keeps on saying he is the candidate of the laboring men, it would not be impertinent for some of the aforesaid laboring men to ask who is putting up the money for his campaign. Money is being spent like water to re-elect Schmitz. If anybody else is putting it up, why? If Schmitz is putting it up himself, where did he get it? These two propositions expose the hollowness of Schmitz' claim to being a workingman's candidate. He is the candidate of somebody with plenty of dough and an object in having Schmitz re-elected.

The members of the Hearst Congressional party now swinging around the circle of Oakland, Arizona and New Mexico seem to be unanimous in the opinion that all three Territories should be admitted to the Union as separate States without delay. A personal investigation has convinced them that all three are prosperous and growing commonwealths, fully qualified to assume the responsibilities of Statehood. They are undoubtedly right, but there is little hope of the admission of any one of them prior to the next Presidential election. A further delay of a year or two will do no harm, while the admission of new States does disturb political calculation. The lines of the next Presidential campaign have already been

drawn and set without reference to the predilections of the Territories named. Neither their votes nor their inclinations have been counted as factors in the political game to be played next year, and hence there is small probability of their being allowed to participate. They will have to sit on the benches till after the game is over, and then they will be permitted to come and hang up their hats as members of the family of States.

Hints for the Ladies.

Some lovely letter holders for use on the desk are shown in decorated children.

White felt hats with black trimmings are among the popular modes and are to be found in many shapes and styles.

Tiny little spiral bracelets made purposely to sleep around the fat baby wrist come in sterling silver and cost \$1.25 each.

A pair of handsome longnettes is in sterling silver with an artistic flower design in relief, the entwined stems forming the long handle.

Thick pads of loofah are set on backs with long handles and are to be used in the place of the long-handled bath brushes.

The felt hats which have no crown to speak of still remain popular, though many of the new hats are shown having quite high crowns.

One may now take his watch to the big shops and have the face of the "one you love the best" photographed on its gold cover for a small sum.

All sorts of pretty stockings are on the bargain counters these days for only a quarter, and it's surely the odd woman who wouldn't be able to find a becoming one.

Some pretty belt pins in the design of girls' heads with old-fashioned sun-bonnets on, are to be seen. They are in silver and have corresponding to them belt slides for the sides and back.

Some handsome leather cigar cases are shown decorated in pyrography work and have left a place for the monogram which will be burned on after purchase.

Pretty little house or room slippers of soft leather and keelless, in brown, tan, red and black are sold for 49 cents a pair, and are among the comely things of this life.

People who like to wear the particular badge of the secret order of which they are members, will now find these pins and buttons on sale in the department stores at very moderate prices.

Cupid seems to figure in most of the tiny silver ornaments, for there is Cupid sitting on a bench with his bow and arrows by his side, Cupid on a chair and Cupid with a dog—in fact, Cupid poses in all sorts of ways.

Insects are very popular in jewelry and one sees all sorts of creeping and crawling and flying things in precious stones. A handsome lace pin shows a design of diamonds.

One of the pattern hats shown is a curious mixture of dark blue and peacock feathers. It is in turban shape and is made of blue velvet, while on each side are decorations of the lovely peacock feathers with their blue and green colors.

The embroidery of pictures is all the vogue in England, but the designs and the manner of their working, are a great improvement on the Berlin wool picture embroidery of our great-grandmother's day.

Nice corset waists for very cold weather can be made of outing flannel. Face the neck, bottom and armholes and feather stitch with white silk the depth of hem around the neck and down each side of front and around armholes. A shell edge of silk crocheted into the cloth around the neck makes them very pretty indeed.

AS 1890 styles of dress are revived in dress, so the embroidery that employed our grandmothers' fingers is engaging feminine attention at present, and many are the ways that it is used. Wool and silk embroidery on canvas bands and gay Persian colorings on silk in cross-stitch embroidery are very popular for waists. The same patterns are pretty for cushion covers and bureau scarfs made of huckabuck toweling for white canvas.

To lengthen a child's frock make use of the fashion of insertion. A couple of rows of lace insertion will be very effective and will probably make the frock wearable till it is quite worn out. Sew the edges of the insertion on close together, then cut the material behind and the skirt will drop to the width of the insertion. In case of a flounced dress wide tape can be inserted in the same way, the surface afterward being made neat with a strip of the dress material.

SCHOOL BOARD TO

CALL ELECTION.

It is settled that the Board of Education will soon call a bond election to provide funds for the erection of new school houses and the purchase of sites, in accordance with the report of the special bond committee, which was rendered some time ago.

That report was adopted by the Board, and referred to the judicial committee with instructions to prepare a call for a special election. It is probable that the judicial committee, of which Lowell J. Hilly is chairman, will be ready to report when the Board meets tonight.

If there is any further delay it will be occasioned by the difficulty in fixing the boundaries of the voting precincts.

The committee is proceeding with great care, for in an election of this kind it is necessary to follow the law literally in every particular.

EIGHT KILLED IN

A BRIDGE

ACCIDENT.

TRAVELING CRANE COLLAPSES

AND MOWS DOWN WORKMEN.

PITTSBURG, Pa., October 18.—Eight men were killed, two are missing and four were badly hurt today by the collapse of a traveling crane on the Pittsburgh end of the new Wabash railroad bridge over the Monongahela river.

W. J. McCLURE, GEORGE WELLS, C. E. LINDANER, WILLIAM KEAMTON, C. L. FLEMING, FREDERICK SALLINGER, FRANK DALBY.

The missing: Edward Farris, James Simpson.

The injured: Adolph Voshburg of Duquesne; Frank Hoover, Allegheny, recovery doubtful; William Jay of Beaver Falls; A. M. Fowler of Erie.

The cause of the accident has not yet been ascertained. The bridge of the American Bridge Company, the Wabash railroad, and is being built from both sides of the river toward the center by means of traveling cranes. The cranes had been at work on the Pittsburgh end but a short time when suddenly the traveler, which is projected beyond the bridge, fell, dropping and falling, landing on a section of the bridge which was being placed in position. So unexpected and sudden was the crash that a few of the workmen on the wrecked section were warned in time to escape. The falling bridge landed on top of a barge loaded with lumber, and the weight of the workmen were carried down.

John McTigue, a cousin of the Superintendent of Police, who is a blacksmith's helper employed at the city machine shops, happened to be on the wharf watching the men at work when the bridge fell. McTigue, in giving a description of the accident said:

"The men were preparing to ram in one of the pine on the bridge when the accident took place. I saw the bridge fall. The men turned over and over as they fell and their bodies looked like so many fish."

The financial report was as follows: Receipts from Supervisors, \$500, third prize, \$350, total, \$850; payments, cartage, etc., \$27.50; printing, \$23.25; fruit and vegetables, \$12.80; salaries, \$840; expenses at Sacramento, \$189; incidentals, \$20; office expenses, \$20; total, \$987.55, balance surplus, \$121.45.

The committee consisting of Theo. Gier, A. Jonas, Wilber Walker and George W. Arper, inclosed check for the cash surplus of \$212.45, which at the suggestion of Mr. Walker was ordered transferred to one of the Fair fund.

Chairman Mitchell said he wished to thank the committee of the Merchants' Exchange for the very able manner in which they had conducted the display at the State Fair, and he hoped they would be as successful in their management of the exhibit at the world's fair.

Supervisor Kelley proved that the action of the managers of the exhibit be approved and that the approval be filed. The motion prevailed.

WAS PEEPING

THROUGH WINDOW.

Saturday night C. W. Toomey saw Edgar H. Kellogg peeping through a window of the residence of M. Hanley, on Telegraph avenue near Twenty-second street.

According to the story, Kellogg had climbed upon a box and had his eye glued to the window, seemingly intensely interested in what was going on inside. Toomey knew this was not the proper thing for Kellogg to do and told him so, which angered the peeper and he attempted to thrash Toomey for his interference. But Toomey is muscular, too, and when he grabbed Kellogg the latter found he had unwittingly gotten himself into chancery because he was held, despite his struggles, until Officer Walter came upon the scene and took charge. Kellogg was booked for battery and will be given to tell why he was peeping through the window and why he did not leave when told to do so.

WINS HER HEART.

Food That Helps Baby and the Family Pleases Mother.

Show a mother how to feed her baby so that it will be healthy, plump and grow up strong and sturdy and the mother's gratitude is everlasting.

A mother says: "Five weeks ago I weaned my baby but could not get her to take any kind of food until I tried Grape-Nuts which she relished from the first and on she has plumped up and blossomed into a fat, chubby little girl."

I feed Grape-Nuts to her regularly and use three packages a week for baby and my three-year-old boy alone, and I find that it regulates their bowels and keeps them nourished, strong and in good health all the time.

"Since feeding my children on Grape-Nuts I have used absolutely no medicine for either of them. Such as this that does such wonders wins its way to a mother's heart. Please accept the thanks for the good your food has done in our family where we all eat it." Name given by Postum Co., Battle Creek, Mich.

Children will grow up strong and healthy or weak and puny according to the good given. Grape-Nuts is a complete and perfect food made on scientific lines and this is easily proved by trial.

Look in each package for a copy of the famous little book, "The Road to Wellville."

FORGER MAKES

ESCAPE.

Supervisor Kelley was authorized to have Contractor John Gentry construct a sewer for the south entrance of the Court House on Fourth street to Washington street for drainage of storm plant.

Adjudged.

HAS ENOUGH TO

LAST HIS LIFETIME.

John Silva appeared this morning for sentence upon a charge of misdemeanor and was given \$25 or 30 days' imprisonment. He said he had been advised that he could win in the Super Court if he could appeal, but that he had had all of courts he wanted for the remainder of his lifetime and thought he best way out of the difficulty would be to pay the amount assessed against him, which he did.

Silva was arrested upon complaint of Agnes Fratesman, 8-year-old girl, who alleged immoral conduct on his part. Silva is a flagman for the Southern Pacific Company at Twenty-third avenue.

DENTISTS PLEAD

RIGHT GUARD ALLEN GETS THE MEDAL.

He Made the Best Showing for California in the Intercollegiate Freshman Football Game.

BERKELEY, October 19.—After long consideration on the part of the judges the D'Ancona prize for the most excellent showing made on the gridiron by a freshman man has been awarded to L. H. Allen, the tall right guard on the defeated team. It was the consistent playing of Allen when the rest of the team went to pieces that won for him the distinction.

The medal was offered last August by Dr. Arnold A. D'Ancona, professor of hygiene and dean of the medical college in San Francisco. It consists of a gold shield with the University of California pennant crossed with a United States flag, the trophy being appropriately engraved with the name and achievement of the winner.

Despite the fact that the freshman team lost the annual game, the rally that would have been held there had been a victory, took place on the bleachers this afternoon.

The '95 medal presented by Arthur North for the "most deserving athlete," has been placed on exhibition in the library.

COLLEGE SOCIAL CIRCLES ACTIVE

BERKELEY, October 19.—This week will be an unusually busy one in social circles at the University of California, some event having been arranged for each day.

The Sophomore women met today to perfect arrangements for their "Jolly-up" to be held tomorrow night at Hearst Hall. This occasion will be in the nature of a banquet. At noon on Wednesday the co-eds will give a concert to which all the students of the University have been invited.

The Senior singing on Thursday evening will take the nature of a concert open to all the members of the University. The program will be presented as usual on the North Hall steps. On the same evening the Associated Graduate Students of the University will give their postponed reception to the new graduate students on the North Hall.

The first large dance of the year will be held Friday night in Harmon gymnasium when the Freshmen will hold their glee.

BANK CASHIER A CONFESSED FORGER.

CHICAGO, Oct. 19.—A dispatch to the Tribune from Princeton, N. J., says: J. P. Lerner, cashier of the Princeton State Bank, has been arrested today and taken to Hartford by Sheriff Ogilvie, where he is now in jail. State Bank Examiner Marcus G. Barge last night stated that Lerner had confessed that he forged a check for \$10,000.

The Princeton State Bank is closed and the depositors are being notified. The bank officials do not intend to open the doors for business today.

Speculation in grain, Lerner says, was the cause. J. P. Lerner came here as cashier of the Princeton bank eight years ago and the examiners believe that the forgeries have covered a period of six years.

It is said by persons who are familiar with the affairs of the Princeton bank that the depositors probably will be paid off in full with money now on hand.

State Senator B. D. Morse is president of the Princeton bank.

HOLD SUCCESSFUL EXHIBIT.

CHILDREN OF THE MCKINLEY SCHOOL WILL LEAVE PIANOS AS MEMENTOS.

BERKELEY, October 19.—The pupils of the McKinley school who three weeks ago undertook the work of raising money for the purchase of two pianos to be installed in the hall of the building, raised \$77 last Saturday as the result of a successful loan exhibit held in the assembly hall of the school. The affair was attended by 500 friends of the children who paid ten cents each as admission fee. Since this the children cleared \$10 from the sale of candy and \$15 from lemonade.

Some exceedingly costly articles were shown at the exhibit, the display comprising works of art, bronzes and colonial relics.

The idea of raising money for the pianos originated with the members of the December '98 class who will leave the instruments as a memento.

The remainder of the money for the pianos will be raised by private subscription and by a Thanksgiving sale.

WAS THE FOUNDER OF MUSEUM.

GERMANIC INSTITUTION STARTED AT HARVARD BY PROF. SCHILLING IS DEDICATED.

BERKELEY, October 19.—The dedication of the Germanic Museum at Harvard last week marked the dedication of a project originally started by Professor Hugo K. Schilling, now the head of the German department of the University of California.

The museum, which is wholly for student purposes, furnishes material for the study of the development of the Germanic races. As a model for his plan, Professor Schilling took the Germanic Museum at Nuremberg.

The money which made the new museum feasible at Harvard was first collected ten years ago, being raised largely through the efforts of Professor Schilling. One of the contributors to the museum was the German Emperor who gave casts of medals and works of art valued at \$10,000. Prince Henry gave a photograph of a battle with the pictures of the Kaiser. The Emperor intended giving to Harvard.

President Wheeler has announced that the project of a museum at California has been discussed and if started it will be on lines similar to that at Harvard.

SPECIAL COURSE FOR STUDENTS.

BERKELEY, Oct. 19.—Upon the direction of the Board of Education a special preparatory course for those who wish to enter the State University or to remove deficiencies in the subject of chemistry and physics, has been established at the Berkeley High School.

No tuition fee is required of the students in the special course, the only requirement being the payment of a small sum to cover the expense of the work in the chemical and physical laboratories.

The course of instruction is done by J. A. Pierce, the regular teacher of the school.

MANCHURIAN TOWN SURPRISED.

ST. PETERSBURG, Oct. 19.—A telegram from Port Arthur says that the town of Manchuria, on the Sungari river, Manchuria, has been surprised by Chinese soldiers, that a detachment of Cossacks has been sent to occupy it.

BERKELEY, October 19.—The zoological department has just received a number of valuable contributions. Mrs. Phebe A. Hearst has just given an extensive collection of molluscan shells and shellfish which will furnish some excellent specimens for the museum.

ENDEAVORING TO BLACKMAIL RAILROAD

HELENA, Mont., October 19.—According to well authenticated reports the Northern Pacific Railway Company is not alone in its troubles with the dynamiters, though it has so far been the only sufferer. For several days there have been a number of Great Northern secret service men in Helena and vicinity, and it has developed their mission is to try to locate the person who has sent the company a letter levying blackmail. Just when the letter was received by the Great Northern no one in authority knows, or who it was addressed to, but it is known such a letter has been received. The letter was mailed at Cascade and it demanded the payment of \$15,000. The railroad company was commanded to fly a signal if it acceded to the demand and to give up all Tuesday evening, October 20, to comply. If it did not comply then the amount of the blackmail would be raised to \$30,000 and to show that business was meant dynamite would be used on the rails. Instead of displaying the signal the railway company has sent its detectives to Montana to try to ferret out the writer of the letter.

REMARKED AFTER TWENTY-ONE YEARS.

NEW YORK, October 19.—Although they were lawfully married by a priest twenty-one years ago in Newark and have raised a large family, Cesare Pinelli, a prosperous fruit dealer, and his wife have found it necessary to remarry. The second ceremony was made necessary by failure to have the one twenty-one years ago duly recorded in the office of the City Clerk. There was, consequently, a lack of evidence that the Italian Government before a legacy of \$5000 can be paid to a daughter of the couple.

TRUSTEES WILL DISCUSS BOND ISSUE.

Town Board Will Have a Problem in Satisfactorily Apportioning the \$250,000.

BERKELEY, October 19.—For the purpose of discussing the terms under which the election for the proposed issuance of \$250,000 bonds for the improvement of the city is to be held, the members of the Town Board of Trustees will hold a special meeting tomorrow night. In making his recommendation to the Board at the last session, President Thomas Rickard advised that the sum be apportioned in the following manner: \$100,000 for the purpose of additional land and the erection of a new Town Hall; \$30,000 for the equipment of the fire department; \$20,000 for the use of the street department; \$75,000 for the purchase of school sites in the north, south, west and central portions of the town; \$25,000 for the purchase of property in West and South Berkeley for the use of parks.

It is expected that these sums will be radically changed as a result of the conference. Trustee Christian Hoff of the Sixth Ward, which is in West Berkeley, will demand that a portion of the money be used for building a wharf. It has long been the ambition of the West Enders to have a wharf situated along their water front and the representatives of that section will favor that improvement instead of a Town Hall.

The general committee of citizens, who are seeking to have manual training introduced in the schools, will ask that \$10,000 of the sum be apportioned for this purpose.

In response to a general demand, it is probable that the amount to be asked for will be increased to nearly \$300,000. Those who are most strongly in favor of the bonds contend that the fire department cannot be properly equipped and maintained for \$30,000.

During the special meeting, President Rickard's plan to have the tax rate increased from 75 cents to \$1 will also be discussed.

GLIMPSES INTO ANCIENT HISTORY.

Socrates was rolling about on the floor with his hands pressed against his stomach.

"By the whiskers of Jove!" he groaned, "that drink must have contained knock-out drops. Eh, doc?"

The doctor made a hasty examination. "It was hemlock," said he.

"Shades of the Trojan!" exclaimed Socrates. "And the wretch of a bar-keep told me it was a rye highball!"

With the word "highball" still trembling on his lips, he gave up the ghost.

GOLDEN GATE, October 19.—Last night, at the Methodist church Rev. E. H. Hill delivered the second of his subjects in the "Success Series," entitled "The Soul's Blind Spot, or the One Thing Lacking." Mr. Hill handled his subject aside from theological ideas, and said in part:

"A chain is no stronger than its weakest link. That weakest link is the one thing lacking. All the other links may have been tested and that one overlooked. But when the trial comes and that one link breaks and all is lost. To it is in character. A blind spot, a little thing lacking, may be overlooked, or even disguised, but beware. That weak link in the warp and woof of your life will break when it is least expected and you will go down under a temptation which your friends considered you strong enough to withstand."

NEWPORT, R. I., October 19.—Some of the alleged evils of society have been held up to the view of a large audience here in Emmanuel Church by Rev. Dr. H. Porter. The church is in the heart of the cottage colony and many of the fashionable cottages are included in its membership.

"The demons of society," said he, "are intemperance, impurity, dishonesty, gambling, bribery, perjury and divorce; rottenness in our civilization. Our day may be no worse than other days, but they are bad enough. We ask ourselves if Christ's teachings and influence are waning with the increasing centuries of time. Why cannot society cast out its own evils?"

"There are many in society who lament and deplore these evils, but society, on the whole, does not care enough about its evils to seek to cast them out. Some day it will."
